Credibility

Credibility

Distance Traveled

'Religion'

- Simplicity
- Routing Security Rigor
- Dessert, if time

Internet Initiative Japan

- First commercial ISP in Japan
- Asian and some US backbone
- Commercial customer base
- Internet, not telephant, MPLS, ...
- First commercial IPv6 deployment
- WIDE, Kame, the IPv6 code base you are running on UNIX, ...

We're Old Fashioned

- Internet, not ATM-2 / MPLS, etc
- VoIP etc. over IP, it is possible!
- IPSec is a big seller, the P in VPN
- High touch, a lot of services
- Quality, quality, and quality
- And we're profitable!
